

Emergency Childcare

To assist barristers with childcare responsibilities to manage court or other commitments when children are ill or regular care arrangements are unavailable, the Bar Association has collated a list of search functions to located emergency childcare providers.

The Association has collated information, however has not independently verified their representations and is unable to provide any assurances about accuracy or quality of service. This is designed to be a helpful starting point. The Bar Association is not affiliated with any of these providers.
