

Practice at the Bar is unquestionably stressful!

There is a higher than average level of stress within the legal profession. This may result in maladaptive consequences and outlets, including anxiety, depression, alcohol and drug misuse, family issues, work difficulties and related problems.

The reluctance of people to seek help for fear of showing signs of weakness can perpetuate and exacerbate the problem. We need to educate and assure ourselves that it's okay to ask for help, and that to do so is not a weakness but a strength that could save you from unnecessary suffering and, in extreme cases, maybe even save your or someone else's life.

The ACT Bar Association has recognised the seriousness of these issues and has established BarCare to assist members in dealing with such pressures.

BarCare is a confidential service to assist barristers that acts independently from the ACT Bar Association.

How BarCare works

Members are encouraged to make separate contact with any panel member and organise a consultation. The Bar Association will meet the cost of the **first** consultation for **all barristers holding an ACT Practising Certificate**. The member will be responsible for payment of any additional consultations. (Medicare and/or insurance rebates may be available.)

The Panel

The panel members hold the following attributes:

- Formal qualifications in counselling or clinical psychology, or organisational psychology;
- Seniority and experience in their professional field;
- Experience in working with lawyers;
- Completely independent practitioners in private practice settings;

Confidentiality

The process is completely confidential.

There is no need to inform the Bar Association in relation to any session arranged. The sessions are strictly confidential and the panel will not be reporting to the ACT Bar Association on any individual case.

Payment of Consultations

Accounts are forwarded to the CEO to sign off on, with the identity removed. This ensures complete confidentiality to the barrister. Any personal information is only disclosed to the Bar Association with the express permission of the barrister.

Source of referral

The nature of the scheme is aimed at a proactive approach. To overcome the reluctance of barristers to seek help, there is a proactive aspect that has been instituted with the co-operation of the ACT Magistrates Court and the Supreme Court of the ACT. Judicial officers of these Courts will, in any case where the facts or circumstances are considered horrific or of a particular confronting nature, advise the CEO of the name of the case and counsel involved. The CEO will then contact one of the panel members who will in turn make contact with the barrister involved to offer the services of BarCare.

Family members or colleagues who may have concerns about a barrister may also seek guidance about how they should approach those difficulties.

If preferred, the CEO can also make a call to the barrister and offer the services of BarCare. In this situation the name of the reporting person is not disclosed to the barrister.

Key Message

We all from time to time struggle with various issues. Sometimes they go away and other times you can't stop thinking about them. Please allow yourself to talk to someone or if you see someone showing these signs – ask them if they are okay!

COUNSELLOR PANEL

Mike Holl

Mike is a highly dedicated therapist with over 2 decades of experience. Mike offers counselling to individuals, couples and families.

As a qualified and seasoned practitioner he draws on various therapeutic modalities as well as on his own authenticity to create tailored support for each person.

He is trained and equipped to effectively provide brief counselling interventions and consultations as well as longer term psychotherapy.

His approach supports people so that they are more likely to draw on their own strengths and values while feeling resourced and able in bringing about changes in their lives.

Initially trained as a social worker he went on to train as a counsellor in person centred Psychotherapy. This led to further training in couple and Family Therapy as well as Narrative therapy. These ideas and practices inform a collaborative and non pathologising approach to working with people, families and communities.

Mike has a BSc. (Hons) in Psychology, coupled with various Post Graduate Diplomas in Counselling, Family therapy, Social Work and Experiential Psychotherapy. Mike has a particular interest in conflict resolution and restorative practices and is a member of the Australian Association of Social Workers and the British Association of Counselling and Psychotherapy.
